FemiMist Bird Song Spritzer

Bringing people together to experience the strength & value of community. People in need of cedarwood may struggle to form bonds within social groups. Often due to over- developed sense of individuality. Rather than allowing community, family, friends to support them, they live in excessive self-reliance.

Flip side is an individual's challenge forming social roots stemming from feeling disconnected/ separate from humxn family. Cedarwood inspires feeling of belonging & assists the heart in opening to receive love & support from others. This invites the strong-willed individual to couple the strength of individuality with the supportive power of community. Life is a shared experience.

Created this for grounding purposes but through use found it shines a community light on a solo bird. Especially when that bird is trying to re- home or find a new way of being home. Cedar offers home to their winged friends within a community of diverse, dense trees.
